

ESAA English Schools' Track & Field Championships Athlete Registration Form

ESAA

Welcome to the County Athlete Registration System

This year we are asking athletes who think that they might be eligible to be selected for their County team to register themselves online here.

By registering online, you will ensure that your name is spelled correctly in all the ESAA publications relating to the National Track & Field Championships in July:

- In the event programme
- On tee-shirts
- On the scoreboard
- In the results
- On your accreditation ID card
- On television

It is really annoying to get all the way to the Championships only to find that your name appears incorrectly everywhere so it is in your own interest to register yourself!

However, this facility is also designed to help reduce the work that County Team managers need to do, so please only register here if you are in the top 4 or 5 in your County in the events for which you might be considered.
